High-performance Scraper Type Self-cleaning Filter

- Continuous online filtration, regular cleaning, slagging, reducing waste
- Filtering viscous materials has advantages
- V-SLOT slit type metal filter element, precise filtration, uniform gap, no card impurities, stable flow
- Long service life, increased pressure difference, no deformation of the gap, high structural strength

Our Factory

1. Mainly products Bag Filter, Cartridge Filter, Self-cleaning Filter, Modular Self-cleaning Filter, PP Filter, Filter bag, Filter Element, Filter Material, sea water desalination, Portable desalination system, Candle Filter.
2. More than ten years of experience in filter production and development, with a number of industry invention patents.
3. Supply API,AWWA,ASME,BS EN,DIN,JIS standard,TUV,CE,ISO9001,TS,OHSAS,WRAS certificated.
4. According to the actual working condition, professional R & D team can provide the solution of solid-liquid separation of the filter

FAQ

Q1: How could we get quotation?

A1: Normal provide us medium, temp., pressure.

Q2: How long is the delivery time?

A2: Simple filter 5-10 days, design filter 15-90 days on different request.

Q3: What about the payment term?

A3: T/T 30% deposit, balance payment after finished production before shipment. Or as

discussed.

Q4: What's your MOQ? Can I have a sample order?
A4: We can support 1pc order, welcome to check our quality.We accept sample order.

Q5: What's your quality inspection? Do you test all your goods before delivery?
A5: Yes, 100% test.The equipment will be debugged before leaving the factory.

Q6: Could I customize special request like material and parts?
A6: Sure, provide your request list, our engineers will change the system as you need, to ensure the filtration work excellent

Q7: How do you provide after-sales service and installation?
A7: Warranty 1years. We provide filed installation, please contact us for quotation.
