**RKSfluid®**  
A key Valve in Flow Control

Butterfly Valve    Ball Valve    Gate Valve    Globe Valve    Check Valve    Pipe Fittings

The image is a promotional graphic for RKSfluid. It features a central logo with a stylized eagle and the text 'RKSfluid®' and 'A key Valve in Flow Control'. Below the logo, six different types of valves and pipe fittings are displayed on a dark background with blue lighting effects. Each item is labeled with its name in a small box at the bottom: Butterfly Valve, Ball Valve, Gate Valve, Globe Valve, Check Valve, and Pipe Fittings. The background also shows a complex industrial piping system.

The composite seat of the RKS valve is formed by permanently gluing an elastomer to a rigid gasket ring. In addition to superior seal integrity, this design makes valve installation easier while reducing high torque and premature failure due to rubber deformation. Modular design simplifies seat replacement and ensures economical maintenance

## APPLICATION SCENARIO

Industrial water application

Power plant

Sea water desalination

Water treatment

Water supply and drainage

HAVC

Food and drug

Water transport

## Our Factory

# Company Advantages

I 100% high level ex-factory inspection

II 4 factories

III 21 years of professional experience

IV 28 top senior professional researchers

V GB, TUV CE, ISO 9001, ADWO-2000, TS, PED, WRC, WRAS, KTW, API 6D, API609
