

As part of our ISO 9001:2015 certified production process, we offer a wide range of valve types and materials to meet your specific requirements.

Valve

Our valves are designed for high performance and reliability.

They are suitable for a wide range of applications.

Our valves are made from high quality materials.

-1000000psi maximum operating pressure

-500000psi maximum differential pressure

Our valves are manufactured using CNC technology.

Our valves are tested to GSK and WIS standards.

Our valves are available in a range of sizes.

- 0.5 inch diameter

- 1.1 x p n + 1 inch diameter

- 1.5 x p n + 1 inch diameter

- +/- 0.2 inch tolerance

Our valves are tested to a pressure of 1000psi.

Our valves are tested to a flow rate of 100gpm.

Our valves are tested to a flow rate of 100gpm.
