

RKSfluid®

A key Valve in Flow Control

Butterfly Valve

Ball Valve

Gate Valve

Globe Valve

Check Valve

Pipe Fittings

Product Description

Super Anti-corrosion
Epoxy powder coating **200-250µm**,
baking varnish over **200°C**,
use  material.

Free wedge nut, **reduces the stem bending forces** and at the same time enables it to be easily replaced.

The more compact new cap, reduces the water retention areas in order to **reduce the risk of bacterial growth**.

One piece stainless steel stem in for **better resistance to axial load and to with stand higher operating torques**.

Three locking tab for bayonet system prevents self-dismantling.

Dust guard integrating three O-ring shape, **prohibiting the introduction of foreign bodies** at the stem.

Male guiding system with composite sliding skate reduces the wear of the wedge against the body, allowing a smooth functionality and a longer life time of the valve.

Triple seal at the operating stem to ensure tightness with the test of time (2500 cycles).

New male composite sliding skate technology ensuring a low operating torque even under high differential pressure and preventing damage or corrosion generated by the friction.

Our Factory

© 2015 RKS Fluid Co., Ltd. All rights reserved.

✓ All CNC machined parts are made in China.

✓ All products are tested before delivery.

✓ All products are made in China.

© 2015 RKS Fluid Co., Ltd. All rights reserved. CE TUV ISO 9001 ADWO-2000 TS PED WRC WRAS KTW API 6D API609

Our factory is located in China. We have a large stock of valves and components. We can provide you with the best quality and price.

Four factories

Why choose us

- 2 professional testing centers
- 28 senior professional researchers
- Independent research and development team

- 21 years of professional experience
- 100% high level ex-factory inspection
- 2 years quality assurance, repair and replacement
