Proven Technology-Superior Features-Legendary Value

API6D 2PC with ISO5211 (CF8 / CF8M / WCB) 150LB ~ 300LB

API6D 2PC with ISO5211 (CF8 / CF8M / WCB) 150LB ~ 300LB. This valve is designed for high-pressure applications and is available in various materials and sizes. It features a robust construction and a reliable ball mechanism for flow control. The valve is suitable for use in a wide range of industrial environments, including oil and gas, chemical processing, and power generation. The ISO5211 standard ensures compatibility with a variety of actuators and accessories, making it a versatile choice for many applications. The 2-piece design allows for easy installation and maintenance, while the high-pressure rating ensures long service life and safety. The valve is available in sizes ranging from 1/2 inch to 24 inches, providing flexibility for different system requirements. The materials used, such as CF8, CF8M, and WCB, offer excellent corrosion resistance and mechanical strength, ensuring reliable performance in demanding conditions. The valve is also compliant with various industry standards, including ASME, ANSI, JIS, DIN, BS, and GB, making it a globally recognized and trusted component.

RKSfluid provides a wide range of industrial valves and fittings. Our products are designed to meet the highest standards of quality and performance. We offer a variety of valve types, including ball valves, gate valves, and check valves, in different materials and sizes. Our valves are suitable for use in a wide range of industrial applications, including oil and gas, chemical processing, and power generation. We also provide a full range of fittings and accessories to complement our valves. Our products are available in various materials, including stainless steel, carbon steel, and alloy steel, to meet different application requirements. We are committed to providing excellent customer service and support, ensuring that our customers receive the highest quality products and the most reliable service. Our valves and fittings are designed to be durable, reliable, and easy to maintain, making them a cost-effective choice for many industrial applications. We also offer a range of technical support services, including design assistance and installation guidance, to help our customers get the most out of our products. Contact us today to learn more about our products and services.

## Company Advantages

01

21 years of professional experience

03

Independent research and development team  
28 top senior professional researchers

05

100% high level ex-factory inspection

07

2 years quality assurance, repair and replacement

4 factories

02

2 professional testing centers

04

High quality imported materials
