

RKsfluid®

A key Valve in Flow Control

Butterfly Valve

Ball Valve

Gate Valve

Globe Valve

Check Valve

Pipe Fittings

The composite seat of the RKS valve is formed by permanently gluing an elastomer to a rigid gasket ring. In addition to superior seal integrity, this design makes valve installation easier while reducing high torque and premature failure due to rubber deformation. Modular design simplifies seat replacement and ensures economical maintenance

APPLICATION SCENARIO

Industrial water application

Power plant

Sea water desalination

Water treatment

Water supply and drainage

HAVC

Food and drug

Water transport

Our Factory

Company Advantages

01

21 years of professional experience

03

Independent research and development team
28 top senior professional researchers

05

100% high level ex-factory inspection

07

2 years quality assurance, repair and replacement

4 factories

02

2 professional testing centers

04

High quality imported materials

06
