

RKsfluid®

A key Valve in Flow Control

Butterfly Valve

Ball Valve

Gate Valve

Globe Valve

Check Valve

Pipe Fittings

Product Description

Super Anti-corrosion
Epoxy powder coating **200-250µm**,
baking varnish over **200°C**,
use  material.

Free wedge nut, **reduces the stem bending forces** and at the same time enables it to be easily replaced.

The more compact new cap, reduces the water retention areas in order to **reduce the risk of bacterial growth**.

One piece stainless steel stem in for **better resistance to axial load and to with stand higher operating torques**.

Three locking tab for bayonet system prevents self-dismantling.

Dust guard integrating three O-ring shape, **prohibiting the introduction of foreign** bodies at the stem.

Male guiding system with composite sliding skate reduces the wear of the wedge against the body, allowing a smooth functionality and a longer life time of the valve.

Triple seal at the operating stem to ensure tightness with the test of time (2500 cycles).

New male composite sliding skate technology ensuring a low operating torque even under high differential pressure and preventing damage or corrosion generated by the friction.

Engineering Projects

Product Category

PTFE lined butterfly valve

Resilient seat butterfly valve

Double offset butterfly valve

Triple offset butterfly valve

Ball valve

Pipe fittings

I business areas: fluid control products, technology and environmentally friendly products.

II Advanced CNC machining center, professional process unit, wide range of welding equipment, automatic assembly line and coating.

III China Standard Reference Unit, participating in the formulation of relevant valve industry standards.

IV We have established a research and development center in Houston, Texas, USA.

V product standards: GB, German standards, US standards, TUV CE, ISO 9001, ADWO-2000, TS, PED, WRC WRAS, KTW, API 6D, API609.

Six, the main production: butterfly valve, ball valve, gate valve, check valve, globe valve, pipe fittings, manual / pneumatic / electric actuators, valve accessories.

Four factories

Why choose us

- 2 professional testing centers
- 28 senior professional researchers
- Independent research and development team

- 21 years of professional experience
- 100% high level ex-factory inspection
- 2 years quality assurance, repair and replacement

FAQ

Q: If I need a quote, what information do we need?

A: Valve material, temperature, pressure, medium, application system.

Q: Can you provide an actuator? What are you?

A: Pneumatic, electric, hydraulic, solenoid valves. The RKSfluid actuator uses US technology. You can tell us what you need.

Q: What is your production capacity?

A: There are four factories in RKSfluid that can provide the products you need.

Q: Production lead time

A: Ordinary products have 2 to 5 working days of inventory. Need to be customized according to your needs.

Q: MOQ

A: All products are 1pc.

Q: How about quality assurance?

A: 100% quality inspection before delivery, 2 year warranty. Make sure your system is running safely.

We have obtained TUV, API, WRAS, CE, ISO certification.

The standard complies with DIN, ASME, BS EN, JIS, API, AWWA.

Q: How do you provide quality service to our customers?

A: RKSfluid has 20 years of experience and more than 70 R&D engineers provide technical support, model selection and installation instructions.
