

The main function same as K100. But there is no back pressure in the control chamber of the main valve. And the main valve can be fully open.
Water level difference:100-1000mm adjustable.

Why choose us

1. We provides the most competitive solutions with the most professional technical support, the most comprehensive quality management and the most premium customer service.
2. Response : 24 hours on line with Every Day

COMPANY INFORMATION

I Business area: fluid control products, technology and environmental protection products.

II Advanced CNC machining centers, professional process cells, wide-range welding equipment, automatic assembly lines and coating.

III China's standard reference unit, to participate in the development of relevant valve industry standards.

IV We have set up a research and development center in Houston, Texas, in the United States.

V Product Standard: GB, German Standard, American Standard, TUV CE, ISO 9001, ADWO-2000, TS, PED, WRC WRAS, KTW, API 6D, API609.

VI Main production: butterfly valve, ball valve, gate valve, check valve, globe valves, pipe fittings, manual / pneumatic / electric actuator, valve parts
