

API600 WCB / SS

API600 WCB / SS: This is a standard specification for valves and fittings. It ensures that the components are made of high-quality materials and meet strict performance requirements. This is crucial for ensuring the safety and reliability of the system.

oem: OEM (Original Equipment Manufacturer) refers to the company that designs and manufactures the product. In this case, RKSfluid is the OEM. This means that the valves and fittings are specifically designed and manufactured for your application.

100% QC: This indicates that 100% of the products are inspected and tested to ensure they meet the required quality standards. This is a key indicator of the company's commitment to quality and reliability.

API600 WCB / SS: This is a standard specification for valves and fittings. It ensures that the components are made of high-quality materials and meet strict performance requirements. This is crucial for ensuring the safety and reliability of the system.

技术参数:

- 1) 口径: 1/2 "-36"
- 2) 重量: 150LB, 300LB, 600LB
- 3) 材料: ASTM A216 WCB / CF8 / CF8M
- 4) 材料: ASTM A216 WCB / CF8 / CF8M
- 5) Bonnet: ASTM A216 WCB / CF8 / CF8M
- 6) 密封: D507Mo, D577
- 7) Stem: 1Cr13, F6a
- 8) Yoke nut: ZCuAL10Fe3, ASTM A439 D-2
- 9) 材料: WCB
- 10) 标准: GB, ANSI API, 符合 API 标准
- 11) 类型: Rising Stem Gate Valve
- 12) 材料: 符合 API 标准
- 13) 材料: 符合 API 标准
- 14) 压力: 2.94MPa / 7.67MPa / 15.3MPa
- 15) 压力: 2.16MPa / 5.62MPa / 11.23MPa
- 16) 压力: 0.6MPa
- 17) 材料: 符合 API 标准
