Free wedge nut, reduces the stem bending forces and at the same time enables it to be easily replaced.

The more compact new cap, reduces the water retention areas in order to reduce the risk of bacterial growth.

One piece stainless steel stem in for better resistance to axial load and to with stand higher operating torques.

Three locking tab for bayonet system prevents self-dismantling.

Dust guard integrating three O-ring shape, prohibiting the introduction of foreign bodies at the stem.

Male guiding system with composite sliding skate reduces the wear of the wedge against the body, allowing a smooth functionality and a longer life time of the valve.

Triple seal at the operating stem to ensure tightness with the test of time (2500 cycles).

New male composite sliding skate technology ensuring a low operating torque even under high differential pressure and preventing damage or corrosion generated by the friction.

APPLICATION SCENARIO

Industrial water application

Power plant

Sea water desalination

Water treatment

Water supply and drainage

HAVC

Food and drug

Water transport

faq

Q: How long is the lead time for your products?

A: It depends on the quantity and the configuration of the products.

Q: What are the main products you offer?

A: We offer a wide range of hydraulic actuators, including RKSfluid Actuators.

We also provide technical support and maintenance services for our products.

Q: How do I place an order for your products?

A: You can place an order through our website or contact our sales team directly.

Q: What are the payment terms for your products?

A: We accept various payment methods, including credit cards, bank transfers, and escrow services.

Q: What is the Minimum Order Quantity (MOQ) for your products?

A: The MOQ for most of our products is 1 piece.

Q: How do I ensure the quality of your products?

A: We have a strict quality control system in place to ensure that all our products meet the highest standards.

We also offer third-party inspection services for our products.

Our products are certified by TUV, API, WRAS, CE, and ISO.

We also comply with various international standards, including DIN, ASME, BS EN, JIS, API, and AWWA.

Q: How do I contact your sales team for more information?
