COMPANY INFORMATION

COMPANY FACTORY

i) **Manufacturing Process:** The manufacturing process involves the use of advanced CNC technology to ensure precision and consistency in the production of our valves and actuators.

ii) **Material Selection:** We use high-quality materials, including stainless steel, cast iron, and ductile iron, to ensure the durability and reliability of our products.

iii) **Quality Control:** Our rigorous quality control process includes multiple inspection points throughout the manufacturing process to ensure that every product meets our high standards.

iv) **Testing Procedures:** Each valve and actuator undergoes extensive testing, including pressure testing, leak testing, and performance testing, to ensure they meet the required specifications.

v) **Certifications:** Our products are certified to various international standards, including GB, ISO 9001, ADWO-2000, TS, PED, WRC WRAS, KTW, API 6D, and API 609.

VI) **Customization:** We offer a wide range of customization options to meet the specific needs of our customers, including different valve sizes, materials, and actuator types.

Q: What is your company name?

A: RKSfluid, a professional manufacturer of hydraulic components.

Q: What is your company address?

A: RKSfluid, a professional manufacturer of hydraulic components.

A: We are located in China, and we have a factory in China. We can provide you with the address of our factory. We can also provide you with the address of our company. We can also provide you with the address of our warehouse.

Q: What is your company phone number?

A: RKSfluid, a professional manufacturer of hydraulic components.

Q: What is your company email address?

A: RKSfluid, a professional manufacturer of hydraulic components.

Q: What is your company MOQ?

A: 1pc, we can provide you with the address of our factory.

Q: What is your company website?

A: RKSfluid, a professional manufacturer of hydraulic components.

Q: What is your company certification?

A: RKSfluid, a professional manufacturer of hydraulic components.

Q: What is your company certification?

A: RKSfluid, a professional manufacturer of hydraulic components.
